Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372. This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1. In accordance with 37 CFR 1.499, Applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-11 and 33-38, drawn to an apparatus and method for treating pelvic organ prolapse comprising a ring-shaped main body and an applicator.

Group II, claim(s) 12-22, drawn to an apparatus for treating pelvic organ prolapse comprising a main body and an anchoring body.

Group III, claims 23-32, drawn to an apparatus for treating pelvic organ prolapse comprising a main body which is deformable at least three points thereon.

The inventions listed as Groups I, II, and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features because there are three separate technical features found between claims 1, 12, and 23 (i.e., a ring-shaped main body and applicator as in independent claim 1, an anchoring body as in independent claim 12, and a deformable main body at least three points as in independent claim 23) such that the claims are not linked by common or corresponding special technical features and instead define three different inventions.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected

invention. The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
